This our suggested solutions for Physical lab.

Physical lab. Equipment		
Sr.	**Equipment**	**Origin**
1	**Dissolution tester 6/ 8 stsation complete system** **Electronic Temperature Calibration Key** **Calibration Tool Kit complete** **IQ/OQ/PQ Documentation Pack**	**UK**
2	**Disintegration Tester 1/2/3/4 stations, *with/ without independent station control* .** **Electronic Temperature Calibration Key** **Qualification Tools** **IQ/OQ/PQ Documentation Pack**	**UK**
3	**Friability tester: Variable speed, 1/ 2 drums .** **Abrasion Drum** **Qualification Tools** **IQ/OQ/PQ Documentation Pack**	**UK**
4	**Tablet hardness tester** **Thickness Measuring Gauge** **Balance** **Calibration Rig** **Set of Weights for (4 x 10kg, 2 x 5kg)** **Qualification Tools** **IQ/OQ/PQ Documentation Pack**	**UK**
5	**Powder Testing Workstation, with Angle Of Repose Module** **Powder Testing Assistant** **Scott Volumeter** **Qualification Tools** **IQ/OQ/PQ Documentation Pack**	**UK**
	Other options available, upon request	

6	**Tapped density Method 1 - 14mm drop (250ml)**	**UK**
	Tapped Density Tester Method 2 - 3mm drop (250ml)	
	250ml Measuring Cylinder	
	Platform for use with 250 mL Cylinder - Method 1	
	Qualification Tools	
	IQ/OQ/PQ Documentation Pack	
	100 ml Measuring Cylinder	
	Other options available, upon request
